Beyond Fundraising Workshop

Anthony Collins Solicitors, in partnership with the **Church Urban Fund** and **Mazars** accountants, have pleasure in inviting you to **Beyond Fundraising** – a *one day interactive workshop* designed to help address the important economic issues facing churches, charities, faith based community groups and other organisations involved in the regeneration of their communities.

In these challenging times, it is becoming increasingly necessary to move 'beyond fundraising' and look to new ways of generating income (in order to become more sustainable, helping to secure a brighter future).

Whilst we recognise that this may seem a daunting task, through our many years' experience of working in the faith community sector, we want to share with you the many opportunities that might exist to make your assets perform better. During the course of the day we will be covering the following topics.

Making Your Assets Perform

Can you earn an income from your buildings?
What restrictions are there?
What if you have to take on building works?
Tax and VAT implications?

Legal Structures

Should you work through your Church or a separate organisation?
What is a social enterprise?
Should you set up a charity?
What are the advantages and disadvantages of the various options?
What is trading and how much can you do?

Working with Public Bodies

What opportunities are there?
How does contracting with a public body work?
Are there restrictions for a church engaging with public bodies?
Capital and Revenue grants and their implications?

We do hope you will be able to join us for what we are certain will be a lively and thought provoking day.

If you would like to come along, please click on the 'Register' button at the top of the screen.
